### DESCRIPTION

Albums tell a story through art, photography, music, and lyrics. Biographies tell the story of a historical figure who made an impact on a field or discipline. Can you combine the two? Select a scientist or historical figure to research and tell their journey through music and art.

### DISCUSSION

- When building the playlist, you had to choose moments from your historical figure's life. How did you decide which moments or events were most important and why?
- What if you were the featured historical figure? What would your album look and sound like?
